5. Affiant has neither seen, nor been presented with, any evidence, and likewise any material fact, that demonstrates Rockland County Executive Ed Day, and all his associates enforcing FORCED VACCINATION, have the authority to

enforce medical treatment. Vaccination, especially a set of vaccinations, are considered a medical operation. I can not authorize such a procedure due to it's highly suspicious nature, and high chance of risk to my greater well-being, or the greater well-being of my child. The reasons for this are as follows: No vaccine can be deemed totally safe, since warnings of many symptoms and disorders arising from a vaccine can be found within the packet inserts of all vaccines the State requires by mandate.

6. Affiant has neither seen, nor been presented with, any evidence, and likewise any material fact, that demonstrates Rockland County Executive Ed Day, and all his associates enforcing FORCED VACCINATION, have assured me that by forcing vaccination is going NOT going to harm myself or my child.
7. Affiant has neither seen, nor been presented with, any evidence, and likewise any material fact, that demonstrates Rockland County Executive Ed Day, and all his associates enforcing FORCED VACCINATION, have the authority to compel me to succumb to forced vaccination when they as yet have not presented me with any personal guarantee, written or otherwise, that myself or my child will NOT be harmed by said vaccines the State has mandated.
8. Affiant has neither seen, nor been presented with, any evidence, and likewise any material fact, that demonstrates Rockland County Executive Ed Day, and all his associates enforcing FORCED VACCINATION, have the authority to make me comply with a medical procedure which has the possibility of creating autism, mental retardation, ADHD, decreased intelligence, cancer, disorders of the skin, allergies, disorders of the eyes and ears, sudden infant death syndrome, Parkinson's disease, dementia, Alzheimer's disease, respiratory and cardiac failure, chronic nervous system dysfunction, meningitis, encephalopathy, seizures, anemia, and epilepsy to name but a few.
9. Affiant has neither seen, nor been presented with, any evidence, and likewise any material fact, that demonstrates Rockland County Executive Ed Day, and all his associates enforcing FORCED VACCINATION, have presented me with an assurance or guarantee that myself or my child will not acquire the diseases in which they claim to prevent.
10. Affiant has neither seen, nor been presented with, any evidence, and likewise any material fact, that demonstrates Rockland County Executive Ed Day, and all his associates enforcing FORCED VACCINATION, can declare that Since the majority of the population of Rockland County NY is vaccinated by their own choice for themselves and their children, if it is truly the position of the State that the vaccinations mandated do control the spread of the diseases they are given for, then my choice not to vaccinate myself or my child cannot possibly create an epidemic of any kind that poses a risk to the other citizens of the State.

I am of sound mind and body, and it is my firm philosophical belief that the said vaccinations mandated by the State of NY and Rockland County, have been proven by science to be extremely harmful to my body, or my child's body. Under this belief, and the belief that said mandated vaccinations will create harm to myself or my child, I hereby refuse such vaccines to be entered into my body or the body of my child without my permission and against my will.

I reserve all my constitutional rights, and my rights granted to me under the common law, and hereby confirm that I will prosecute to the fullest extent of the law if these rights are violated in any way as a result of my decision not to vaccinate. If you continue to harass me about receiving or administering

such vaccinations against my will and better judgment, or if I or any member of my family are vaccinated by force due to any State vaccination statute or perception by any member of the DCF, I will fully prosecute Rockland County and Ed Day and any person who administers such a vaccine for assault and battery under the fullest extent of the law.

Sincerely,
